

Press Release

Name of Event: Plastic free campus Drive

Date: 5-June- 2020

Press Release

University leads the way in "Plastic free campus" Initiative.

University is taking a bold step in eliminating single use plastic from its campus. This includes replacing plastic utensils, containers, and straws with eco-friendly alternatives, such as compostable or reusable materials.

Faculty and students are collaborating to find practical solutions to reduce plastic waste. The "plastic free campus drive" reflects the university's dedication to reducing plastic waste and fostering a culture of environmental responsibility within its campus community.
